## Professional Experience

### Volunteer Intern, Opportunity Hack

*May 2020 - Aug 2020*

- Created MedCare, an open source Electronic Health Records System on GitHub for use by nonprofit organizations
- Developed the frontend of system using React Components, React DOM Routing, and Bootstrap
- Managed the project with 5 developers using Agile methodologies through GitHub issues and kanban board
- Deployed solution on the Heroku cloud service

### Technology and Information Services Intern, City of Redmond, Redmond, WA

*Jul 2019 - Aug 2019*

- Imaged and deployed over 80 laptops using SCCM and network PXE booting as a part of a laptop replacement program
- Provided technology support to city staff both in person and through the SolarWinds ticketing system

## Academic Projects

### Sunhacks 2020

*Oct 2020*

- Designed and built geographical check-in system to track population densities of ZIP Codes using a React Frontend coupled with an Express backend and a MongoDB database

## Extracurricular Activities

### ASU Fulton Student Council (FSC)

*Aug 2019 - Present*

#### Freshman Council Director

*Aug 2020 - Present*

- Owned the freshman onboarding process and worked with other executive board members to recruit new talent
- Collaborated with council members and other student organizations to plan multiple events throughout the year

### Seattle Mayor Campaign for Bob Hasegawa

*Jun 2017 - Aug 2017*

- Conducted outreach programs to boost voter engagement using NGP VAN software
- Set up a climate change forum with Seattle Mayor candidates
- Analyzed campaign strategies and speech/debate arguments of Seattle Mayor Candidates
